This Month's SC Grown Fresh Produce....

Beets

Kale

Fun Facts:

You can use beet juice to measure acidity. When added to an acidic solution it turns pink, but when it is added to an alkali it turns yellow.

Mainly grown in Middle and Western Europe, North America, and East and West Africa. Kale needs to be exposed to the first winter's frost so some of the plant's starch can be changed into sugar.

**** Contains Pork**

All Bread that is served in Lexington School District #1 is Whole Grain.
